

○ Hosei University Education and Research Information Network Usage Policy

Regulation 591

Purpose

Article 1. The purpose of this Policy is to stipulate necessary matters concerning the use of the Hosei University Education and Research Information Network (hereinafter, “University LAN”) based on Article 7 of the Network Committee Regulations.

Usage

Article 2. The University LAN must be used for the purpose of promoting, and contributing to the development of, the education and research activities of the University.

Qualified Users

Article 3. The University LAN may be used by:

- (1) students, faculty, and staff of the University; and
- (2) other persons approved by the Director of the Hosei University Computing and Networking Center.

Application for Use

Article 4. Qualified users who wish to use the University LAN must submit the prescribed application form to the Director of the Hosei University Computing and Networking Center for approval.

Matters to Be Observed by Users

Article 5. Users of the University LAN shall:

- (1) comply with the Hosei University Regulations;
- (2) observe the fundamental principles of the Constitution of Japan, international conventions, and laws and regulations of Japan;
- (3) respect public order and morals and maintain dignity appropriate for the education and research activities of Hosei University; and
- (4) respect the following rights closely connected to expressions without infringing them:
 - a. intellectual property rights including copyrights, patents, and trademarks
 - b. honor, credit, and portrait rights
 - c. rights concerning privacy and other personal rights.

Fee

Article 6. The fee required to be paid by the University’s students for the use of the University LAN shall be stipulated separately.

Cancellation of Approval

Article 7. The Director of the Hosei University Computing and Networking Center may cancel the approval for or order the discontinuance of use of the University LAN if the user is found to have:

- (1) violated any of the provisions of Article 5 hereof; or
- (2) made a false entry(ies) in the application form.

Responsibility

Article 8.

1. Users of the University LAN shall manage and be responsible for documents transmitted and products produced by themselves.
2. The University shall not be responsible for any damage suffered by users as a result of data corruption, delay in or suspension of the provision of service, or other problems caused by the failure of the University LAN.

Abolition of This Policy

Article 9. This Policy may be abolished only if the Hosei University Computing and Networking Center Operations Committee decides so after discussion.

Supplementary Provisions:

1. This Policy shall be enforced on April 1, 1998.
